

9906 Tabletop Printer

051790

**Increased productivity.
Streamlined processes.**

Improved productivity, reduced costs

Looking to streamline your retail supply chain?
Need to reduce costs? Want to increase the
speed of goods moving through your organisation?

The 9906 4" tabletop printer is a fast, easy-to-use
barcode labelling solution that will assist with all of
these challenges plus many more.

Ideal for applications such as:

- Box labelling
- Shipping labelling
- Product identification
- Pallet labelling
- Compliance labelling

Two versions of this printer (standard and professional)
are available. The professional version has increased
functionality. The standard version is specifically
designed with an emphasis on value and efficiency.

Power supply:	90 – 264 VAC with auto select 50 / 60 Hz

Features & benefits at a glance

Improve productivity

By combining speed and high quality print re-
sults the 9906 ensures efficiency. Easy-to-use
features mean fewer errors and no need for
time consuming staff training.

Reduce Total Cost of Ownership (TCO)

The 9906 is designed to increase your
Return on Investment (ROI) and reduce the
TCO. Dynamic dot shifting technology gives
extended print head lifetime, fewer print head
changes and errors, and less downtime.

Streamline processes

Flexible connectivity options including Ethernet,
Wi-Fi and USB allow the 9906 to easily integrate
into your existing computer systems and network
set-ups.
